AARON  JOYEROS
— JOYERIA & RELOJERIA —

20 AÑOS DE TRAYECTORIA

Con más de dos décadas de trayectoria en el mundo de la alta joyería y relojería, nos enorgullece presentar una colección excepcional de piezas que reflejan lujo, sofisticación y maestría artesanal.

En nuestra casa joyera, cada creación es una expresión de estilo y distinción. Ofrecemos una cuidada selección de relojes de alta gama, bolígrafos de diseño refinado, diamantes de pureza incomparable y exclusivos accesorios de joyería -collares, aretes y anillos- concebidos para realzar la elegancia natural de quien los porta.

Aquí, el arte de la relojería y la joyería convergen en armonía, dando vida a experiencias únicas, pensadas para quienes aprecian la belleza atemporal y la perfección en cada detalle.

ALTA JOYERÍA Y RELOJERÍA

Nos especializamos en piezas exclusivas, cuidadosamente seleccionados para satisfacer los gustos más exigentes. Cada creación refleja excelencia, precisión y una estética atemporal que resalta la personalidad y el estilo de quienes la eligen.

Con una trayectoria basada en la confianza, el buen gusto y la atención al detalle, ofrecemos una experiencia única, donde el lujo se encuentra con la autenticidad. Ya sea una joya para celebrar un momento especial o un reloj que marque tu legado, en nosotros encontrarás la distinción que estás buscando.

AARON  **JOYEROS**

— JOYERIA & RELOJERIA —

SERVICIO TÉCNICO ESPECIALIZADO

En nuestro taller, la precisión se convierte en arte. Ofrecemos un servicio técnico exclusivo para relojes de alta gama, combinando tecnología de vanguardia con la maestría relojera tradicional. Cada pieza es tratada con el máximo cuidado por expertos, especializados en marcas como Rolex, Patek Philippe, Audemars Piguet, Omega y muchas más.

- ⌚ Diagnóstico avanzado
- ⌚ Mantenimiento completo y restauración
- ⌚ Reemplazo de piezas originales
- ⌚ Garantía certificada

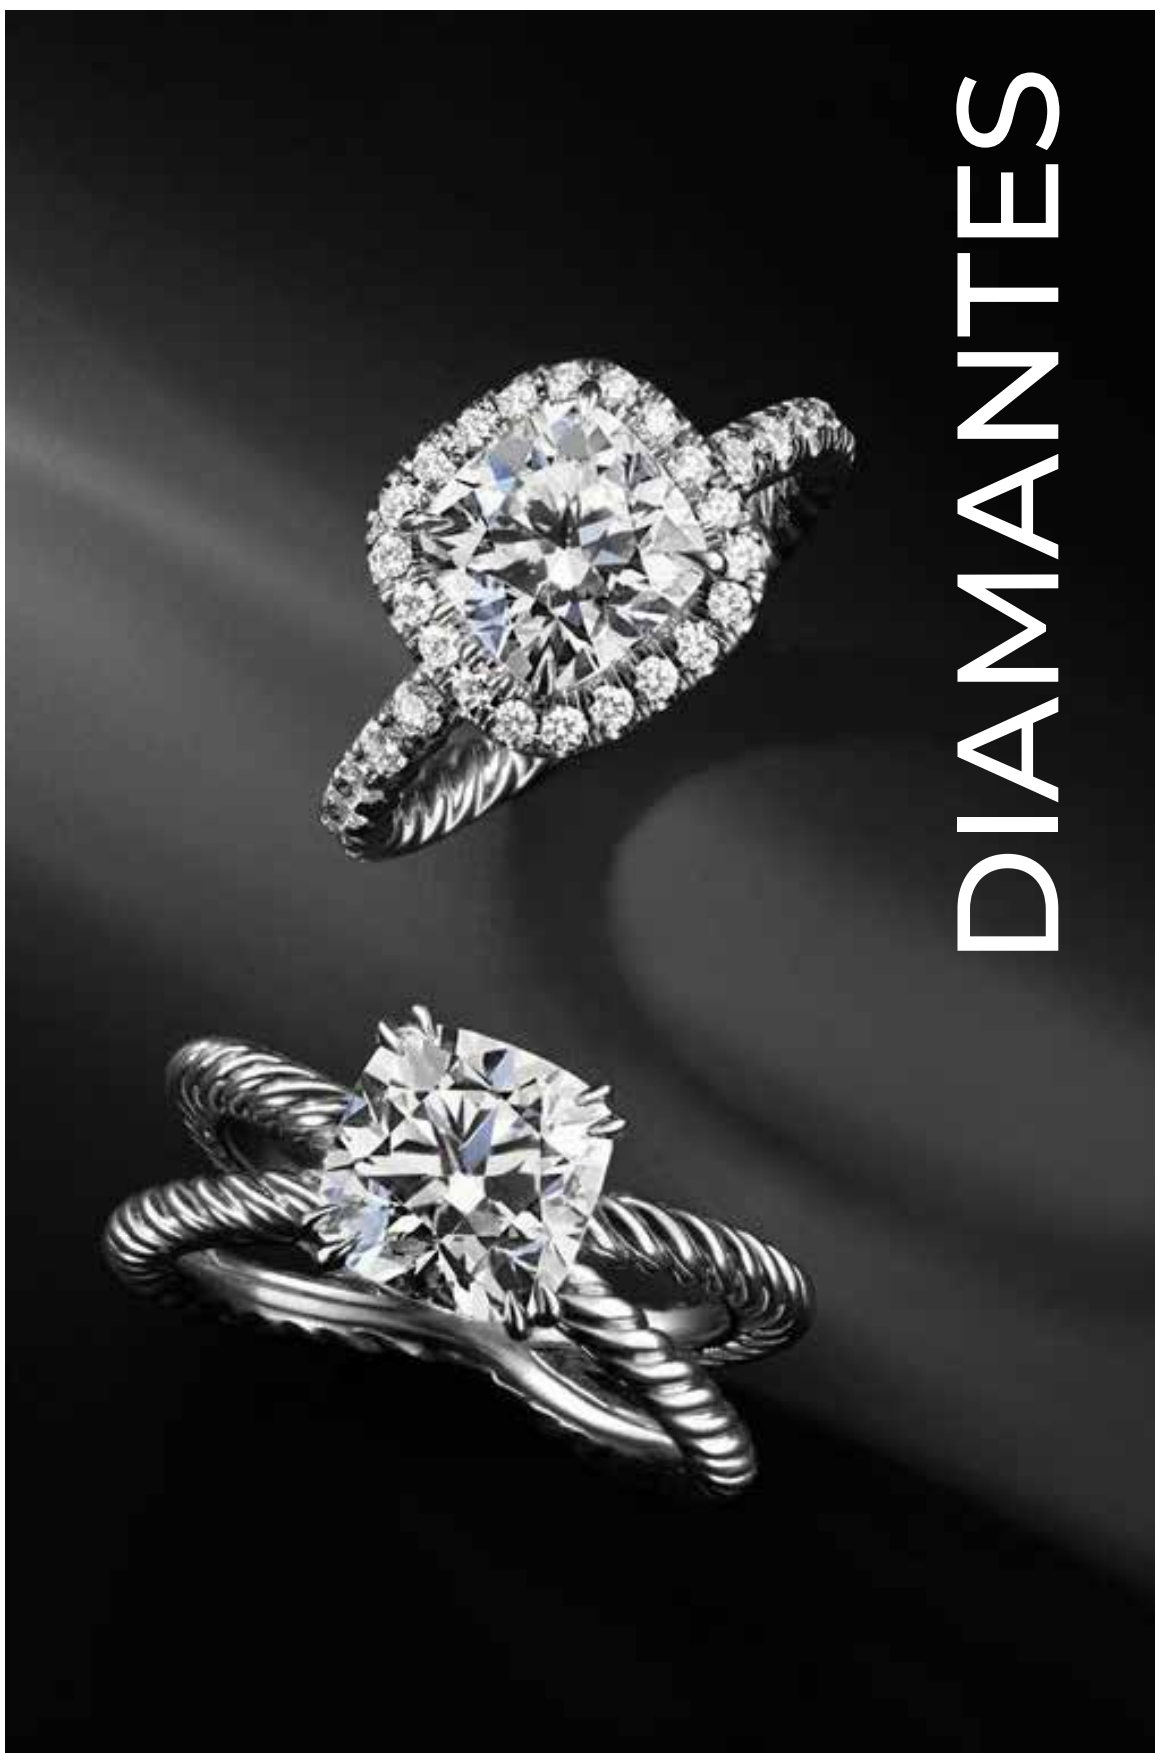

¡ TU RELOJ no solo
merece funcionar,
MERECE HACERLO con
PERFECCIÓN !

AUTOMÁTICO

PRECIO:
\$1,750

Inspirada en la historia de la aviación y las especificaciones militares que la acompañan, Bell & Ross sigue la gran tradición relojera suiza para crear relojes perfectamente adaptados al uso profesional. Cada maestro relojero se rige por cuatro principios fundamentales: legibilidad, funcionalidad, precisión y fiabilidad, para asegurar que lo esencial nunca se vea comprometido por lo superfluo. Cada reloj Bell & Ross está construido en torno a un mecanismo altamente complejo y preciso que, día tras día, participa en la conquista del cielo, la tierra y el mar.

MONT BLANC

LA TRADICIÓN RELOJERA

De Montblanc se remonta a 1858, cuando Charles-Yvan Robert fundó un taller de relojería en Villeret, en las montañas suizas del Jura. Aunque en ese momento no lo supiera, ese hecho marcaría el inicio de la histórica era Minerva.

AIR KING

El Rolex Air-King rinde homenaje a la histórica relación de la marca con la aviación, especialmente durante la Segunda Guerra Mundial. Su actual diseño presenta una esfera negra de alta legibilidad con grandes marcadores y números de minutos destacados, inspirados en los instrumentos de cabina de época. Este modelo fusiona con maestría una estética retro con la ingeniería relojera moderna, convirtiéndose en la elección ideal para quienes valoran el diseño funcional con un trasfondo histórico.

DAYTONA

Desde su lanzamiento en 1963, el Rolex Cosmograph Daytona se ha consolidado como el cronógrafo predilecto de los pilotos de carreras y entusiastas de la velocidad. Su escala taquimétrica permite medir velocidades medias con precisión, mientras que su diseño equilibrado y sus icónicas versiones “Paul Newman” lo han elevado al estatus de objeto de culto. Un reloj legendario, codiciado tanto por amantes del motor como por coleccionistas exigentes.

DATEJUST

Presentado en 1945, el Datejust fue el primer reloj de pulsera automático y hermético que incorporó la fecha con cambio instantáneo. Disponible en una amplia gama de diámetros (28 mm, 31 mm, 36 mm y 41 mm), materiales y esferas, combina con elegancia funcionalidad y estilo atemporal. El Lady-Datejust, diseñado con proporciones refinadas, comparte la misma esencia. Su versatilidad lo convierte en un reloj único capaz de acompañar cualquier ocasión, desde lo cotidiano hasta lo más formal.

DAY-DATE

Conocido como el “President” gracias a su emblemático brazalete y a su uso por parte de líderes y personalidades influyentes, el Day-Date fue el primer reloj en mostrar el día de la semana escrito completo junto a la fecha. Fabricado exclusivamente en metales preciosos como el oro o el platino, es símbolo de distinción, autoridad y refinamiento.

EXPLORER

Nacidos de la experiencia de Rolex en expediciones extremas, incluido el histórico ascenso al Everest, el Explorer destaca por su robustez, legibilidad y resistencia a cambios drásticos de temperatura. El Explorer II incorpora aguja de 24 horas y bisel fijo, ideal para diferenciar día y noche o mostrar un segundo huso horario. Son piezas pensadas para aventureros, alpinistas y exploradores urbanos que requieren un reloj fiable en cualquier entorno.

GMT - MASTER

Creado en la década de 1950 para Pan American Airways, el GMT-Master fue diseñado para mostrar simultáneamente la hora local y la de origen, algo esencial para pilotos y viajeros internacionales. La versión actual, el GMT-Master II, conserva su icónica aguja GMT y el distintivo bisel Cerachrom bicolor, con combinaciones tan célebres como “Pepsi” (rojo y azul), “Batman” (negro y azul) o “Root Beer” (marrón y negro). Un reloj que conjuga precisión, durabilidad y una fuerte identidad visual.

OYSTER PERPETUAL

Considerado el pilar fundamental de la colección Rolex, el Oyster Perpetual destaca por su diseño limpio y atemporal, que muestra únicamente la hora. Con hermeticidad de hasta 100 metros, está disponible en una amplia variedad de tamaños y esferas en vibrantes colores. Es la puerta de entrada ideal al universo Rolex, conservando toda la herencia, precisión y calidad de la marca.

SEA - DWELLER

Diseñados para el buceo profesional, el Sea-Dweller y el Deepsea se caracterizan por su extraordinaria resistencia a la presión. El primero soporta profundidades de hasta 1 220 metros, mientras que el Deepsea, gracias a su sistema Ringlock, alcanza impresionantes 3 900 metros. Ambos incorporan válvula de escape de helio, elemento esencial en la descompresión de buzos de saturación. Son piezas de ingeniería extrema, dirigidas a quienes demandan lo máximo en rendimiento bajo el agua.

SKY - DWELLER

El Sky-Dweller es una de las creaciones más sofisticadas de Rolex, combinando doble huso horario y calendario anual que reconoce automáticamente la duración de cada mes. Su exclusivo bisel Ring-Command permite un ajuste sencillo y preciso de todas sus funciones. Es la herramienta perfecta para viajeros globales que valoran tanto la innovación mecánica como la elegancia contemporánea.

SUBMARINER

Desde su presentación en 1954, el Submariner se ha erigido como el estándar de los relojes de buceo. Hermético hasta 300 metros, cuenta con bisel giratorio unidireccional graduado para medir tiempos de inmersión y cristal de zafiro con lente Cyclops sobre la fecha. Su diseño icónico y versatilidad lo hacen igualmente apropiado para una inmersión en aguas profundas como para un evento de etiqueta.

YACHT - MASTER

Inspirada en el mundo de la vela, la línea Yacht-Master combina espíritu marítimo y sofisticación. El Yacht-Master clásico, resistente al agua hasta 100 metros, incorpora un bisel bidireccional graduado en 60 minutos, ideal para calcular intervalos. El Yacht-Master II, más técnico, está equipado con un cronógrafo programable y función de cuenta regresiva para regatas. Diseñados para quienes viven y disfrutan el lujo sobre el mar.

CELLINI

La colección Cellini encarna la faceta más clásica y refinada de Rolex. Bautizada en honor al maestro orfebre renacentista Benvenuto Cellini, se compone exclusivamente de piezas en metales preciosos, con acabados artesanales y complicaciones como las fases lunares. Un tributo a la relojería tradicional, concebido para quienes buscan un reloj puramente elegante y sin carácter deportivo.

CELLINI PLATINUM

La línea Cellini toma su nombre del escultor renacentista italiano Benvenuto Cellini, lo que refleja la intención de Rolex de ofrecer relojes con un enfoque artístico, elegante y refinado. Esta línea ha estado presente desde la década de 1960 como la cara más formal y clásica de la marca.

La referencia 5241 fue introducida en los años 2000 y representa un diseño depurado, elegante y contemporáneo, inspirado en los relojes de vestir tradicionales.
